

How to edit rating method on iOS.

Open Scripts/ MenuHUD.cs script and edit the variable "iosAppId" with your app id.

```
public GameObject notificationsonBtn, notificationsoffBtn, * Button=OFF

[HideInInspector] public string iosAppId; * Unchanged
private string yourPublisherUrl = "set_your_publisher_page_url";
private string yourEmail = "set_your_email";

private bool _soundOn, _musicOn, _notificationsOn, _particleOn;

* Event function * Dmitry Kicheev
private void Start()
```
